

In a few weeks a copy of this family history covering five centuries of the Baldauf family, who originated in the Regensburg area of Bavaria, Germany, and who arrived in Lorain County, Ohio in 1852, will be sent to you as a gift.

Written in narrative form, commendably readable and illustrated, this history abounds in meticulously researched, documented, verifiable and detailed facts about the occupations, lifestyles, talents and traits of individual direct ancestors, generation by generation through the centuries.

Uniquely designed, this volume serves dual purposes. When read from front to back, it is a continuous history. To use it as a genealogy, locate a name among the 2400 relatives listed in the index and follow page references that quickly trace a lineage backward to the earliest known Baldauf ancestor.
